

Sorting solutions

Activity sheet

Cut out the solutions below. Sort them into the following categories:

- **Responding to emergencies**
- **Development**
- **Campaigning for change**

Some of these responses might fit into more than one category. The aim of this activity is just to get you thinking about possible solutions!

Giving out hygiene kits.

Putting pressure on those in power to invest more in essential health services.

Constructing a new toilet block at a school.

Delivering emergency water supplies.

Training volunteers to raise awareness of good hygiene in their communities.

Distributing water filter kits so that people have safe, clean water to drink.

Building solar-powered water systems so that people have access to clean water close to home.

Installing hand washing stations in a refugee camp.
