

USE YOUR POWER AS FASHION SHOPPERS!

Throwaway fashion is harming people and our planet. Over 11 million items of clothing go to UK landfill every week, with 300,000 tonnes of clothing going to landfill every single year. In one month alone, the carbon footprint of new clothes bought in the UK is greater than flying a plane around the world 900 times.

What will **you** pledge to do to help our planet?
Write it on the other side of this card!
