AGREE OR DISAGREE?

We should always disaggregate data by sex.

AGREE OR DISAGREE?

In chaotic crisis situations, we can't always be sure that the data we collect is reliable.

AGREE OR DISAGREE?

We should avoid using digital tools where women's access to such technology is limited.

AGREE OR DISAGREE?

If we follow all these rules about data management, we'll never get anything done.

— AGREE OR DISAGREE? —

If we follow all these rules about data management, we'll put too much of a burden on communities.

— AGREE OR DISAGREE? —

Informed consent is about explaining why we're collecting information and how we will use it.

— AGREE OR DISAGREE? —

The best place to interview teenage girls about sexual and reproductive health is in the privacy of their homes.

— AGREE OR DISAGREE? —

All participants in focus groups should agree to keep the discussions confidential.

AGREE OR DISAGREE?

We need to get a parent or guardian's consent before collecting data from children.

AGREE OR DISAGREE?

All personally identifying data such as names, addresses, phone numbers, and dates of birth should be treated as high risk, with specific safeguards put in place for their management.

AGREE OR DISAGREE?

Data protection laws don't apply to humanitarian agencies working in other countries.

AGREE OR DISAGREE?

All humanitarian settings are high-risk contexts for data management.

AGREE OR DISAGREE?

We can reuse data, including images, that are already in the public domain.

AGREE OR DISAGREE?

Responsible data management is only relevant to staff who directly collect data in the field.

AGREE OR DISAGREE?

We can protect data better if we store it digitally.

AGREE OR DISAGREE?

We should always use mobile phones to collect data, as it's more efficient.

AGREE OR DISAGREE?

Biometrics are a good way of verifying who people are and reducing fraud.

AGREE OR DISAGREE?

Using drones offers really exciting potential to get images from otherwise inaccessible areas.

AGREE OR DISAGREE?

We should always go back to communities and tell them what we did with the data we collected.

AGREE OR DISAGREE?

We should always encrypt files containing personal data.

DISAGREE?**

AGREE OR DISAGREE?

We should always make distribution lists public, for reasons of transparency and accountability.

AGREE OR DISAGREE?

Digital data should always be encrypted or password-protected.

AGREE OR DISAGREE?

Physical copies of documents should be locked away.

AGREE OR DISAGREE?

As long as files are deleted, it's OK to throw away old flash drives in the office bin.

**AGREE OR  
DISAGREE?**

— AGREE OR DISAGREE? —

We should never take identifiable photos of individuals in conflict zones.

— AGREE OR DISAGREE? —

In order to get better public support, humanitarians should use Twitter to post 'live' images of their day-to-day work.

— AGREE OR DISAGREE? —

If the national authorities ask us for programme data, we're legally required to hand it over.

— AGREE OR DISAGREE? —

Using mobile phones to film is a great way to share information with colleagues about a situation.

AGREE OR DISAGREE?

Once we've collected information, it belongs to our organization and we can do whatever we want with it.

AGREE OR DISAGREE?

We shouldn't tell people they can withdraw consent for us to use their data when in reality we have no way of doing what they ask.

AGREE OR DISAGREE?

We have a responsibility to do something with data once we've collected it.

AGREE OR DISAGREE?

It's best to ask interviewees more questions the first time, so you don't have to go back and ask more.

**AGREE OR  
DISAGREE?**

— AGREE OR DISAGREE? —

Being responsible means we can't openly share data – we have to protect it.

— AGREE OR DISAGREE? —

Privacy is more important than transparency.

— AGREE OR DISAGREE? —

When it's impossible to find female interpreters for minority languages, we need to be pragmatic and use men, or risk women's voices not being heard.

— AGREE OR DISAGREE? —

To have credible global analysis, we should ask the same questions in the same way, wherever we are in the world.

AGREE OR DISAGREE?

To make data anonymous, we should remove all names.

AGREE OR DISAGREE?

Storing data on a local hard drive is safer than storing it in the Cloud.

AGREE OR DISAGREE?

Storing all the data we collect is very expensive and a huge strain on our systems.

AGREE OR DISAGREE?

We should make a plan for data deletion at the very start of a collection process.
